RENO, WASHOE COUNTY, NEVADA

WEDNESDAY, MARCH 13, 1878.

The Capabilities of Deserts.

The conquests of man over man are far excelled by his victories over nature. His vindication of principles although accomplished by sacrifice of blood and life, are far outweighed by his persistence and ingenuity in making all things useful to his needs. Time does not stay him, neither does space limit his desires, and of late years his march has reached the desert sands, and these acres of arid wastes are now forming themselves into productive regions which support life. There can be no better illustration of this last achievement than in these western states and territories of Colorado, Utah, Nevada and Arizona, where man has without aid proven that capital may indefinitely multiply the products and producers in these homeless regions. The subject has received close attention recently pending the question as to Government aid in this work of reclamation. An exchange says:

We noticed, the other day, the receipt of a fine specimen of sugar manufactured by the Redonbo Brothers, near Yuma. This fact recalls to our attention the opinion of Gen. Stone, who has traveled extensively over the date growing countries of Asia and Africa, and who says that the Colorado Desert is admirably adapted for the growth of the date producing palm. The palm flourishes in a dry soil, and is indigenous to arid lands. The Colorado Desert, also, is specially adapted to the production, through irrigation, of a fine staple of cotton; Many portions of this Desert are covered by an indigenous growth of hemp. Sugar, dates, cotton, and hemp are amongst the possibilities of a section which is now looked upon as comparatively worthless. We should not be in the least surprised if, within the next twenty years, this so called desert should, under a judicious system of irrigation, and under the stimulus of railway transportation, be remarked for a large production of the most valued staples of commerce.

Doctor Wozencraft is now before Congress with a petition for a law which shall encourage the "farm maker of the desert." He believes and shows plainly that there is wealth for the nation and honest laborers in the arid regions of Colorado, and we hope that the legislation which he seeks may be granted. Such aid is more profitable to government than subsidies granted to railroads or great corporations. It is in the nature of substantial encouragement to home builders and taxpayers, and we hope that Dr. Wozencraft may obtain a legislative enactment which shall help each one of these western deserts into the productive circles of the world. A small concession from Government will accomplish this end and homes will spring up where sagebrush has flourished alone.

The San Francisco Bulletin thinks that the Retraction Act ought to pass:

We believe that a retraction law can be framed which is wise and just, and which will in no manner abridge the rightful liberty of the press. It should give the aggrieved party the right to summon his accuser before competent authority and if the charges are disproved, compel a prompt retraction. The threats to follow men with personal detraction ought only to make the necessity for such a law more imperative than ever before.

There is very little doubt of that proposition, however startling it may at first appear. A tariff bill could be framed working no injustice whatever, but some way it has never been done. Have the solons now in Sacramento found a model act, or have they thrown out a life-preserver for thieves and villains? This slight point of the controversy seems to have escaped the Bulletin, and we would say that the necessity for an explanation of the Bulletin's position is more imperative than before this dose of mush and milk above quoted.

SACRAMENTO, March 12.—The voting up to one o'clock has been slow. On the Workingmen's ticket Kearney's branch is believed to be ahead. All the men in the railroad shops are working for Turner, the Kearny candidate for Mayor. Pearson, the candidate of the Sacramento Workingmen, is believed to be running away behind his ticket. Felton (Rep.) and La Rue (Dem.) are running about even. Both Republicans and Democrats are bitterly opposed to the election Turner, as he is not a property owner, and this afternoon it is supposed a combination will be formed to defeat him, whichever party develops the most strength polling the combined vote.

Tax on the Net Proceeds.

Storey County Happy over the Following Showing.

The California and Consolidated Virginia Mining Companies paid the taxes upon their net proceeds for the quarter ending December 31, 1877, Monday. The California Company paid \$87,189 79, of which \$67,448 71 went to the County and State, and \$19,741 08 went to Virginia City.

The Consolidated Virginia Company paid \$75,436 21, of which \$58,356 82 went to the County and State, and \$17,079 89 to Virginia City.

The amounts paid to the County Assessor have been apportioned as follows by the County Treasurer:

To the State Fund.....	\$54,797 14
School Fund.....	9,132 86
Railroad Fund.....	30,442 82
Court-house Fund.....	16,221 45
Treasurer's Salary Fund.....	608 86
General Fund.....	14,615 55

All the railroad bonds yet unpaid can now be redeemed, and probably all the Court-house bonds but about \$25,000.

Mr. John F. Swift, an able representative of San Francisco, in the California Legislature says that the Tuttle Mining Bill will induce the mining companies to take their Stock Boards to Virginia City, where their assessments could be made free from supervision, and quite as binding on stockholders in San Francisco as at present. That argument sounds rather uncouth to us, perhaps because we do not understand the matter. We believe however, that the business connected with the sale of mining shares properly belongs to Virginia City or some point contiguous to the mines, where frequent inspection would prevent robbery.

We do not believe that dishonest transactions should be winked at in Virginia City any more than in San Francisco. Mr. Swift's ox seems to be solely a Spring Valley beast, and he cares not how many others are gored.

OAKLAND, March 12.—A murder occurred by stabbing at 1 o'clock this morning on Fourth street, the murdered man being John Harrison, stepson of Con. Dwyer, laborer. The murdered man is John Welsh, son-in-law of Con. Dwyer. The cause grew out of family trouble, about which all parties are reticent. The murderer delivered himself to the authorities and is in prison.

At the city election yesterday a large vote was cast. The Workingmen elect all the candidates except Superintendent of Schools and City Marshal by small majorities. The fight was between the Workingmen and the Republicans, the Democrats fusing to some extent with the latter party.

At the municipal election at Salinas, the Citizens' party elected the whole ticket except one Councilman, a Workingman.

CARD OF THANKS.

We, the undersigned, wish to tender our thanks to Mr. J. A. Brumsey, State Agent, and Mr. James H. Marshall, City Agent of the Home Mutual Fire Insurance Company of San Francisco, for the highly satisfactory and unprecedented manner in which the representatives of the above named Company have settled the portion of the loss which we sustained at the late fire on Frieble's corner. We take great pleasure in recommending the Home Mutual Insurance Company to the insuring public for honest, square, and high-toned dealing.

INSURE in the Home Mutual. If your property is destroyed by fire and you are fortunate enough to hold one of our policies, your money is ready and paid when you most need it. No litigation or trouble.

WATCHES!! JEWELRY!!

ROMAINE GOLD.

SO EXTENSIVELY WORN IN PARIS, was first discovered in 1875, by the celebrated French chemist, Mous. D. Be Dainge, who manufactured it into jewelry, and for five years sold it to the leading jewelers of Paris for Solid Gold. In 1875, when his secret became known, ten of the manufacturing jewelers established a stock company, with a capital of \$10,000,000 for the purpose of manufacturing Romaine Gold Jewelry and Watches. With this immense capital, and the aid of improved machinery, they are enabled to produce all the latest patterns of jewelry at less than one-tenth the cost of solid gold, and of a quality and color which makes it impossible even for experts to detect it from the genuine.

We have secured the exclusive agency of the United States and Canada for the sale of all goods manufactured from this metal, and in order to introduce them in the most speedy manner, have put up assorted sample lots as given below, which we will sell at one-tenth the retail value until January 1st, 1878. LOCAL AFFAIRS.

The Points at Issue.

Those citizens who take an active interest in the affairs of our Public School, the discipline, management and accommodations provided should all be present at the school-house to-night. The law passed at the session of 1877 authorizes the Trustees to recommend at any time the issuance of \$20,000 in bonds. The citizens may then vote upon the proposition, and if the majority vote sanctions the issuance of bonds, the Trustees of District No. 10 are authorized and empowered to sign and negotiate the same.

The amount can not exceed \$20,000. The bonds cannot run longer than twenty years.

The rate of interest must not exceed 12 per cent.

The tax for redemption purposes can not exceed one-fourth of one per cent.

These are the main features of the law, when we add that the Trustees are made superintendents of the work, and auditors of the bills before submission to the County Commissioners. We should like to hear a full and fair discussion upon the subject. It will be shown that our accommodations are at present inadequate. That we shall provide work for several men, and erect a building which shall ensure pure air and elbow room, while at the same time it will be an honor to the county. These are hard times to be sure, but we hope to see the school house built. We hope also to see a change in the proportion of salaries paid to our teachers, according to our suggestion of yesterday. There are several questions in regard to our public schools, as they now appear, quite as important as the new building.

THREATENED OPPOSITION TO NEW CASTLE.—H. H. Beck is daily receiving orders to supply private families with vegetables. He has leased or purchased a plot of ground and hired a first class gardener to tend it. From the notes of the surveyor we find that Beck's garden land is 100 feet in perimeter, and is situated in the State of Nevada, and in Beck's back yard. Orders left at the Granger store will be promptly filled at San Francisco prices, plus commission and freight. Here's your fresh Nevada onions—two for a bit—one with the privilege of half a dozen.

Roll of Honor at the "School for Girls" for the month ending March 31, 1878: Jessie Kirkpatrick, 98.4; Mary Grippen, 98; Laddie Hoole, 97.7; Lizzie Miller, 97.6; Alice Galloway, 97; Addie Stowe, 97.6; Virginia Morrill, 96.5; Hattie Lewis, 96.3; Nettie Chase, 96.2; Gertie Hatch, 96; Alice Higgins, 95.6; Mary Roff, 95.

Miss KATE A. SILL, Principal.

Mr. W. S. Baily, who returned last Saturday evening from New York, says that he just escaped the snow blockade east of Laramie. The train ahead of him was delayed several hours, and the succeeding train with those who followed it for a week were blocked. To-day the snow was cleared away, and through trains will make their regular connections.

MARINE INTELLIGENCE.—M. J. Kent, (mariner) the Nevada correspondent of the San Francisco Evening Post, is in the best town of Nevada to-day. Mr. Kent is considerably interested in the railroad, Chinese, and silver problems, and will report that which he finds in regard to our town and county. Hope his impressions may prove valuable, and we bid him welcome.

PERSONAL.—Sam Grass, the popular lawyer of Humboldt county, is in town to-day. He arrived from Winnemucca last night, and will go forth to Carson on the morrow. Mr. Grass says that grass is good with him, and he comes down to make a little hay for himself. He takes no stock in Rover's ghost.

At the Lyceum last evening the bill to allow women to practice law, medicine or hold judicial office provided she be competent, was discussed by Messrs. Cossitt and Hagerman in behalf of the bill, and was opposed by Mr. Hoole. The same question will again be debated next Tuesday evening.

Tom Hymers, Justice Richardson, Hank Rhodes and Ike Chamberlain are in Virginia ostensibly to appear in behalf of the State vs. Ah Cowie and Ah Breen, but it is thought in the Justice Court to see the "Black Crook."

From Loyalton.

Editor Gazette: On the evening of March 7th the good people of Loyalton gave Rev. S. Monroe Hubbard a complimentary benefit, which, notwithstanding the severe storm of the previous day, was well attended. The entertainment consisted of tableaux, music, readings, &c., and concluded with the comedy "Gammon." Altogether it was an enjoyable affair, and all went away well pleased. After the entertainment refreshments were served in Odd Fellows' Hall, where all enjoyed a good, old-fashioned social evening. The attendance showed the appreciation our people have of the talent, culture and zeal Mr. Hubbard has exhibited in the religious welfare of our community. We regard him as the Beecher of this Coast. He has gotten up such an interest in church matters in Sierra Valley as was never before manifested, and his good works are appreciated by all who have the good fortune to know him in public or private life. Mr. H. is in delicate health, but is improving in our mountain climate and bids fair to soon be able to fully resume his literary work, for which he is so well qualified by nature and education.

JAY.

Jottings.

Go to the Public meeting, at the School House to-night.

Rover's ghost appeared to one Charley Wright through a demijohn in Winnemucca recently.

The Grand Jury of Storey county was listening to the Ah Chouey embroglio yesterday.

The Consolidated Poe caution notice appears in another column.

South Side delinquents are officially notified in another portion of this issue.

Love your neighbor as yourself and don't dun him more than once a week. That's public opinion now.

The V. & T. party to-morrow night at Carson will be a grand affair. A number of ladies and gentlemen from Reno will attend this party. Should there be a dozen or fifteen couples the train will run ahead of time, and arrive in Carson shortly after 7 o'clock. Regular train time 5:30.

The V. & T. R. R. pay car came down from Carson yesterday afternoon, and paid off the V. & T. employees. This forenoon the C. P. pay car glided into town and paid the C. P. boys two months wages, leaving one half month's wages yet due.

Wm. Derby of Alta mining fame was in town to-day.

Mrs. India Hoyt arrived this morning from San Francisco. To-morrow morning she starts out for Bodie to join her beloved "Chawls" who is now a practicing attorney at the above active mining town.

C. S. Varian is in Carson on legal affairs.

We understand there is to be a social this evening at the Baptist Church.

Go to the School meeting to-night. Don't stay away and then growl.

Anybody who owes this office may enter without knocking. Our creditors may leave their cards.

An old-time, corner-grocery politician says there will be half a dozen different tickets in the field this year.

The Reno brass band will shortly appear before a Reno audience in the comedy of "Every body's Friend."

The Carson Tribune of yesterday says of District Attorney Cain:

District Attorney Cain, a descendant of the man who slew Abel, was observed rambling about Main street this morning. He is said to be a better man than his forefather, not possessing the murderous instincts of the Biblical chap, and noted for his "vera city." Besides he knows more about law than a mudhen.

The Schively furnace was fired up to-day for the purpose of giving it a thorough drying prior to putting in any ore. No ore will be placed in the furnace until it has been completely dried. At the next trial of this furnace no failure is expected. Though should it not work because of some unforeseen accident, its discoverers intend making it a demonstrated success.

NOR ROUNT.—They new report that Rover's ghost has been pestered Charles Wright, but in telling it Kelly rings in a demijohn which will account for Rover's ghost or any other hideous thing. That Winnemucca whisky is very poor, and we hope that Mr. Wright will not see any more ghosts. See item in another column.

Mr. R. P. Chapin received this morning from San Jose three thousand fruit and ornamental trees. Among these trees we noticed poplars, pear, peach, apple, plum and cherry trees. Now is the time for tree-planting. Beautify and add to the comfort of your home.

L. W. Lee shipped three carloads of cattle to Dutch Flat this afternoon for Mr. Baily, who lives in Honey Lake Valley. To-morrow morning he will ship six carloads to Oakland.

JUST ARRIVED.—800 pounds fresh candy, all kinds, warranted free from all injurious coloring. Call and see it at W. H. Holmes & Co's., two doors east of Postoffice. 2-9-1m.

REMOVAL.—Yankee Dodge has removed to the store formerly occupied by Messrs Brown & Harney, where he will be pleased to see his friends and patrons. He will keep constantly on hand a general assortment of Yankee notions and fancy goods, and sell them cheaper than any other house in Reno. We will have an auction sale every Saturday evening. Be sure and give us a call before purchasing elsewhere. Don't forget the place, opposite the Reno Opera House, Virginia street.

At Osburn & Shoemaker's drugstore, prescriptions—at prices to suit the times—are prepared at all hours of the day and night by a regular graduate of a college of Pharmacy. 2-18tf.

Arizona.

A Renelle's Views and Experiences during a Seven-Months Inspection Tour, Mines, Lands, Etc.

From Mr. H. J. Matney, who has just returned from Arizona, we learn the following facts which we believe will prove interesting to our readers:

Mr. Matney traveled principally in Yavapai and Mohave counties, passed over a very large area of country, and visited the best mines in that Territory. He was in Arizona seven months, and so situated that he was enabled to learn much of the country, therefore his statements embody facts and opinions which may be not only of interest but of profit to many who shall read this article.

Arriving at Fort Yuma, which is situated on the Colorado, at its junction with the Gila river, we go first up the Gila 210 miles, to its junction with Salt river, speak of the agricultural lands there found, and the natural and cultivated products of the soil; thence to the mining sections, talk of the mines, and close with a few general statements relative to the climate, people, railroads, etc., of that partly known and undeveloped country.

AGRICULTURAL LANDS.

In my route up the Gila to Salt river, a distance of over 200 miles, I saw only one field of grain, and this in size, about 60 acres. The soil is rich on Salt river, and for some distance along the Gila, but the amount of rainfall is very light, and the water for irrigating purposes small in quantity and expensive to get distributed over the farming lands. The Gila contains, except during high water, about as much water as the Truckee, but its waters are not as clear nor as swift as those of the latter stream. The Gila has a wide river bed, often 1/2 to 3/4 of a mile wide, but it lies in an almost flat, plain country, and its waters sluggishly glide onward to the Colorado as a stream which may be waded at nearly any point during two-thirds of the year. This salt river, if I may be pardoned the digression, is one of peculiar interest. Its waters are very strongly charged with salt and perhaps other alkaline matter when they plunge into the Gila or Pima village, whereas it is known that where the river rises in the White Mountains its waters are very pure. But some fifty miles from its mouth it receives a small tributary which issues from the side of a very large mountain as an intensely salty stream, and madly rushing forward very soon joins the Salt river, giving to the latter stream its name, and character to its waters. There are no trees of any considerable size in this large section. There is the Pala Verda, a small evergreen about the size of an ordinary peach tree. It is used for wood, but is a tree of no special value. The Mesquite is a tree or shrub nearly of the size of the Pala Verda, but is more abundant and far more valuable for wood and food. It grows a bean which makes good feed for sheep, rabbits, birds, etc. There is also the Greasewood, a scrubby brush which covers the country pretty much as the sagebrush does this State, but it is not so convenient or useful as our invincible sagebrush, since it is savagely protected by long, ugly thorns. In the same region we find some half dozen species of cactus. These are more abundant than useful. However, from the woody fiber of one species a coarse strong paper may be made. Another species bears a small berry, which, when one is exceedingly hungry, may for the time being answer as an article of food. A third species, with its large, bulbous, juicy leaves, may be used as a source of a sweetish juice, which answers to quench the thirst of one almost famishing.

In olden times the boys used to draw pictures of ships on the slate. Now they draw schooners and have them put on the slate.

Fashion sometimes runs into sarcasm. Thus, for instance, the heading of a marriage notice in one of our exchanges reads: "Rhea—Morse."

"What is a goddess, pa?" asked a very talkative young lady. "It is a person of the feminine gender that holds her tongue," said the old man.

Kansas Teacher—"Where does all our grain produce go to?" Boy—"It goes into the hopper." Teacher—"Hopper! What hopper?" Boy (triumphantly)—"Grasshopper!"

"I Wish I might die," said a sentimental maid, as she stood rubbing the shoulder of her dress with benzine; and yet, the very next time he came, she let him lay his head right in the same spot.

Schoolma'am (just beginning a nice improving lesson upon mineral to the juniors)—"Now, what are the principal things we get out of the earth?" Youthful Angler, aged four (confidently)—"Worms."

"Well, may I hope, then, dear, that at some future time I may have the happiness of making you my wife?" "Yes, I hope so, I'm sure," she replied, "for I'm getting tired of suing fellows for breach of promise."

The Paris Journal Official has told us of a shocking railroad accident at Moody-Shankey, a town in Connecticut, and a dry goods shop in Paris announces as on sale a number of muffs made of "squirrel's skins."

An Iowa editor thus acknowledges a present of grapes: "We have received a basket of fine grapes from our friend W., for which he will please accept our compliments, some of which are nearly two inches in diameter."

A man was going over a field when suddenly he saw a bull with head down and feet pawing the grass. The man went for the nearest fence, but just as he reached it he felt himself lifted by the two masts of the bull, and fell on the other side. He got up, and pointing his finger at the beast, said, "I'll have revenge. I'll get even with you. I've been eating mutton all my life. Henceforth I eat nothing but beef."

The Retort Courteous.

Mrs. Van Cott, in a newspaper interview, said that Bob Ingersoll was only "a poor barking dog." This drew from the great atheistical orator the following note:

BUFFALO, February 24.

Mrs. VAN COTT: My Dear Madam: Were you constrained by the love of Christ to call a man who never injured you "a poor barking dog?" Did you make this remark as a Christian or as a lady? Did you say these words to illustrate in some faint degree the refining influence upon women of the religion you preach? What would you think of me if I should retort, using your language, changing only the sex of the last word? I have the honor to remain, yours truly,

R. G. INGERSOLL.
